Architectural Committee Release Form

Many subdivisions in Highland City have an Architectural Review Committee (ARC). The requirements of an ARC are typically found in CC&R's and are enforced civilly.

Highland City does not accept any obligation or liability to have the plans reviewed and/or approved by an ARC prior to the issuance of a building permit. Permits are issued based on compliance with current city rules, regulations, and building codes.

It is the responsibility of the owner and builder to receive approval from the ARC. Failure to receive approval from the ARC may result in civil action between the owner and the ARC.

By signing this document I certify that I have attempted to locate, contact, and receive approval from an ARC prior to obtaining a building permit. I accept all obligations and responsibility if an ARC does exist and I did not receive ARC approval. Furthermore, I will not hold Highland City to be responsible or liable by any means, if an ARC does in fact exist.
